Interstate Pollution Control- Rockford, Illinois  
Notification of Five Year Review Start for the Interstate Pollution Control Superfund Site  
Superfund/Technical Reports

Dear Mr. Caine:

This letter is to notify you that the Illinois Environmental Protection Agency (Illinois EPA) is starting the five-year review for the Interstate Pollution Control (IPC) site in Rockford, Illinois. Illinois EPA will lead the IPC Five Year Review with assistance from the U.S. EPA. A statutory five year review will be conducted at the site as required by Section 121 of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA). The purpose of the review is to evaluate the remedy implemented at the site and determine if the remedy remains protective of human health and the environment.

The statutory deadline for this five year review is April 10, 2011. This notice is provided so that our respective agencies can begin the necessary coordination for this review. I will be contacting you to schedule a site inspection as well as working with the Illinois EPA Community Relations staff to notify the public of the review.

If you have any questions or would like to discuss the five year review for the site further, please contact me at 217-782-7592 or via email at [doyle.wilson@illinois.gov](mailto:doyle.wilson@illinois.gov).

Sincerely,

Doyle W. Wilson  
Project Manager
